4th September 2015

Ref 2015-2140

Method: email

STATEMENT OF COMPLIANCE:
Mudgee Dolomite & Lime Pty Ltd Coalmine Stonedust
to MDG 3006 MRT5 – Restrictions on Use of Stonedust
for the period 4th September 2015 to 3rd March 2016

To Whom It May Concern:

Mudgee Dolomite and Lime Pty Ltd has sampled and tested* its **Coalmine Stonedust**, from its manufacturing site in Mudgee that supply the coal industry in Australia for the six month period outlined above.

All samples have been found to **comply** with the MDG3006 MRT5 Guideline for Coal Dust Explosion Prevention and Suppression: "Restrictions on Use of Stone Dust" relevant to Clause 179(1) of the Department of Primary Industries Coal Mines Regulation Act 1982, Coal Mines (Underground) Regulation 1999 (NSW), Coal Mine Health and Safety Regulation 2006 (NSW) and the Coal Mining Safety and Health Act 1999, Standard 05, (QLD), namely parts:

- (a) Free Silica must be no more than 3% by mass - **Complies**
- (b)(i) No less than 95% by mass pass through a 250 micrometer sieve – **Complies**
- (b) (ii) of the dry dust which passes (i), no less than 60% and no more than 80% by mass must pass through a 75 micrometer sieve – **Complies**

Should you have any queries or require further information please do not hesitate to contact me.

Yours faithfully,

Robert Murdoch
General Manager
Mudgee Dolomite & Lime Pty Ltd

* Tested to the methods described in MDG3006 MRT5 for "free silica" and "fineness".
